**ORDEN DEL DÍA**

During this first reflective forum, the students of 3rd grade of the English Major, decided to present their experiences during the first practice week (from March 12th – March 18th) in the schools Secundaria Técnica #1 and Secundaria Oficial Álvaro Obregón doing a round table to comment the topics about: Teaching and learning process, Motivation, Rapport, Pacing, Timing and Giving instructions. The students talked about different factors that influence in teaching and learning, that can affect of benefit our classes, in this case the students had some difficulties that weren't on their hands and affect the students' learning. In other occasions, these situations are in our hands, but we are not aware about them because we tried to focus in other aspects, rather than timing, for example (and that is one of the most common); where students will try to improve these teaching abilities for the following practice period.
